FACTS ABOUT NEPAL

Nepal is a small landlocked country sandwiched between China to the north and India to the south. It is one of the poorest countries in Asia with a population of just over thirty million, a life expectancy of 67 years and a literacy rate of 57%. The main religion is Hindu (83%) followed by Buddhist (9%), Muslim (4%), then Christian and others.

The capital is Kathmandu situated in the Kathmandu Valley and home to many UNESCO World Heritage sites.

Nepal is home to eight of the ten highest mountains in the world, Mt Everest being the highest. These mountains are a magnet to climbers and adventurers making tourism one of Nepal's main incomes.

Nepal is truly a third world country with a significant percentage of the population without direct access to water, electricity, and medical services.

PRESIDENTS REPORT

President Report 2022

I am happy to report that 2022 has been a year free from Covid lockdowns and home-schooling. This has resulted in all of our Asha children having a normal school year; unlike the previous two years.

We currently have eight of our older children attending various tertiary colleges in Kathmandu. Kamala and Pradip from the CCRC Home have commenced their first year – Kamala is studying Bachelor of Journalism and Pradip Bachelor of Computer Application. Bijay, also from CCRC has had an outstanding first year at college topping his class, he is studying Computer Engineering. A celebratory lunch and special award were held at Mr. Narayan's hotel in recognition of Bijay's outstanding result. It was wonderful that committee member Kelly was able to attend and represent The Asha Foundation. All our other Asha children are in various years of high school apart from Sharwan who is still in primary school. Their exam results vary from exceptional (Kumar who gains A's) to poor for some of the CCRC girls. Whatever their results, they are all trying hard and are gaining an education that would have not been possible were it not for The Asha Foundation.

Earlier this year, Asha fully funded the purchase of 50 school benches and seats for the Shree Samundra Devi School 30 kilometres north of Kathmandu. Following the 2015 earthquake which destroyed the school, Asha provided financial assistance to rebuild classrooms, so it was wonderful to be able to help this remote school once again.

Of course, the education of our children and projects is only possible due to our wonderful sponsors and donors, some of whom have been supporting Asha for over ten years. Another great supporter is our auditor – David Harvey from Capital Advisory Canberra who once again audited our financial records pro bono.

In closing I would like to thank the committee for your continued support, quite simply without you The Asha Foundation could not continue to improve the lives of our children in Nepal.

OUR SPONSORSHIP PROGRAM

The welfare of our children is of the utmost importance to The Asha Foundation. In 2007 we were supporting sixteen children in a small dwelling in the northern area of Kathmandu, today our sponsorship program supports twenty-six children.

All our children receive quality education which is preferable to the government schools where teaching quality is poor, and classrooms overcrowded.

We now have eight of our Asha children enrolled in tertiary colleges, ranging from Computer Engineering to Rural Development & Culture degrees. Prior to 2007 none of our children would have believed they would be able to go to college, but thanks to The Asha Foundation and our wonderful sponsors and donors, we have made their dream a reality.

Transparency to our sponsors and donors is of utmost importance to us and we can proudly say that 100% of sponsorship funds go towards our sponsorship programs.
