President's Report

Since taking on the role of President in 2010, I have seen many changes. Our committee has grown, our work in Nepal has broadened, our children are growing into wonderful young people and public awareness of Asha is expanding.

During the last year we have witnessed our older children turning into young adults. Binita has graduated from high school and is now planning a career in nursing, Nitesh is in his 2nd year of Business Management and 3 of our 'children' are now in Year 11. It is never far from my thoughts that their achievements were only possible because of the support Asha has received through child sponsorship. The 17 children at the Sai Home, along with 20 children at CCRC and 7 children from single mother families all receive quality education.

It is education that is now the main focus of our work. The Good Oil Project is currently educating 181 children in the village of Bhadratar 4 hours north of Kathmandu. Donations towards this project have at times been less than we would hope for, but each year we are able to keep this project running. It is hoped that in the near future we may secure a major sponsor.

Manisha our spina bifida sufferer is able to attend a special school in Kathmandu because of the genorosity of sponsors. Whilst her education and boarding fees are high in comparison with the other children's school fees, the opportunity she is being given will hopefully paint a bright future for her.

We are in the final stage of our partnership with The Rotary Foundation. This has been a 3 year project in a village 2 hours east of Kathmandu. Sanitation, access to water and hygeine issues have been addressed through the generosity of Rotary.

Just like any organisation, Asha is only as strong as its' people and I am so grateful I am surrounded by like minded indiviuals who believe in what The Asha Foundation is trying to achieve in Nepal. To my committee and Asha staff in Kathmandu thank you so much for help during the year.

Pauline Gleeson President The Asha Foundation Inc.

Child Sponsorship

The welfare of our children is of the upmost importance to The Asha Foundation. Back in 2007 we were supporting 16 children in a small dwelling in the northern area of Kathmandu, today we support 46 children. Through child sponsorship we are able to educate all these children at quality schools and colleges.

The children at the Sai Home receive financial support for rent, food, clothing, medical & dental care.

The children at CCRC are now receiving financial support from other sources but we are still supporting their education expenses.

Our staff in Kathmandu are very meticulous with their budgeting and every dollar sent from Australia is accounted for. Transparency to our sponsors is of utmost importance to the running of The Asha Foundation.

We are proud to say that 100% of sponsorship funds go towards our child sponsorship programmes.

From our humble beginnings back in 2008 we now see our children being well educated at quality schools, this is only possible because of our sponsorship programme

Manisha

Manisha has been under the care of The Asha Foundation since 2009.

A young spina bifida sufferer from the village of Kuntabesi 2 hours east of Kathmandu, Manisha received her first wheelchair at the age of 11 and formal education at 12.

Prior to Asha assisting her, she lived at the Special Disability School at Kuntabesi during the school term and going home to her village during holiday time.

In 2010 Manisha was assessed by a medical team from Kathmandu and was identified as being highly intelligent and was recommended to attend school in Kathmandu.

For the past 3 years Manisha has been a student at the Special Education & Rehabilitation Centre in the capital and apart from her schooling she is receiving rehabilitation & physiotherapy for her spina bifida.

During the school term she lives at a nearby orphanage and travels home to her village during school holidays. Within the next few months, Manisha will be

living at the newly built school hostel which has been specially built for children with disabilities.

Manisha's schooling and boarding fees are A\$120 per month and it is only through child sponsorship that we are able to offer Manisha this incredible opportunity.

Good Oil **Project**

Education children in rural Nepal with the emphasis on girls

This project is very unique as we provide cooking oil to families whose children attend school. Cooking oil is an essential item in the Nepali home and by providing a few litres each month we are helping to elevate the household cost of oil thus enabling the parents to pay school fees. This way the parent is involved in the education of their child.

Each girl receives 1 litre per month and a boy 1/2 litre and all children within the family must attend school and have an attendance rate of 80%.

In addition to the families receiving cooking oil, we also provide the children with exercise books and pens each month.

Now into its' 4th year this project is one that we at Asha are extremely proud of. In November this year 3 committee members will travel to Nepal and visit the Shree Bachala Primary School and see firsthand the impact this education project is having on this small community.

The Location

Bhadratar village is remote and located 4 hours north of Kathmandu. It is not receiving assistance from any other organisation.

How it Works

Kuntabesi School Project

Providing sanitation, access to clean water and school resources

This project was only possible through funding from The Rotary Foundation and the Rotary Clubs of Moruya (Australia) and Dillibazaar (Nepal). The Asha Foundation were the project managers and once again our wonderful staff in Kathmandu were the link between the two Rotary Clubs and Asha in Australia.

This project commenced in 2011 with the construction of a new disabled toilet at the Disabled School and a secure play area. At the Primary School further up the hill, all

internal walls were rendered and painted, new doors were installed and blackboards were re-blackened.

July 2013 saw the completion of the water access with a system of pipes and holding tanks installed near and around the school buildings and toilets. No longer will the children and teachers need to make the journey down the hill to the village water supply and carry heavy buckets back up to the school. A hand washing trough was constructed now ensuring hygiene is possible. A second toilet was also constructed for the female students.

Location

The village of Kuntabesi is located 2 hours east of Kathmandu in the foothills of the Himalayas. The village is surrounded by agricultural lands and the school is situated on the edge of the village.
